

AmGrip anti-slip matting

Our long experience as one of the world's leading manufacturers of conveyor belts has paved the way for the development of our special anti-slip matting.

Exhaustive practical tests of our AmGrip matting for safety floor covering have proved its effectiveness and durability in many different uses.

Product description

Polyester fabric based matting of excellent hard wearing polyurethane surface with enduring anti-slip properties.

Technical information

AmGrip matting	
Top cover material	Polyurethane
Surface	High grip
Colour	Black
Bottom cover	Fabric
Thickness	3.0 mm
Weight	2800 g/m ²

Main features

- Excellent abrasion resistance
- Outstanding slip resistance surface
- Oil and chemical resistant
- Very long life time

Typical applications

- In airport jetties and gangways for a safe approach and take-off
- In vehicles: busses, trains, trucks, tractors and cranes
- In wet areas: ships, boats and water sport equipment
- All slippery surfaces with intensive use: stairways, production plants, ladders and machine footplates
