

Blue Belts to Meet Hygiene Demands

In focusing on the food industry, Ammeraal Beltech has developed a wide range of blue belts.

Ammeraal Beltech blue belts offer lasting support in meeting your food safety standards and assist in HACCP programs. The belts are available in various well-established food executions.

The non-food blue belt colour makes it much easier to identify product contamination, impurities can be spotted much faster.

Blue belts can be provided with a comprehensive range of optional accessories such as carriers and sidewalls. Amseal belt edge protection – also available as an option – offers the dual protection of belt fray prevention and reduction of bacteria ingress.

Innovation & Service in Belting

Food Safety benefits

Blue belts offer the following benefits:

- Improved hygiene
 - › Non-food colour
 - › Less cross contamination
 - › Less risk in product liability issues
- Higher visual aspects
 - › Modern design with a technical colour
 - › Improved image
 - › Cleaner belt and conveyor
- Easy to clean
 - › Amseal or KleenEdge non-fray executions
 - › Highly cleanable covers e.g. Nonex, Ropanyl, Silam
 - › AntiMicrobial types
- Assist in meeting health and safety matters
 - › Reduce eye fatigue
 - › Easy to detect in the event of belt damage
- Wide range of products available
 - › Process and conveyor belts
 - › Modular belts
 - › Endless woven belts
 - › Engineered belts
 - › Soliflex homogeneous belts
 - › Ultrasync positive drive belts
 - › Round & V-rope belts

Applications

Ammeraal Beltech blue belts can be used in almost any sector.

Due to the use of blue as a non-food colour, the blue belts are particularly suitable for applications in the food processing industries, such as:

- Bakery
- Confectionery
- Meat & poultry and fish processing
- Dairy
- Fruit & vegetable processing

Protection against microbes begins with proper hygiene and cleanliness. Current cleaning and hygiene practices remain essential and have to be maintained.
