

Perforated Polypropylene Plastic Egg Belt

Rydell supplies a wide range of belts to the Poultry industry, including our wide selection of perforated egg belts. This type of belt is widely used in high volume egg production, and we can assist you, with your specific requirement.

We also have the widest range of PVC and PU conveyor belts, as well as plastic modular belt, to be your "one stop poultry belt shop"

Specifications

- White 60 mil (1.5mm) thick Polypropylene (PP) plastic
- Square holes, does not allow dust to settle on belt
- Less cracks are produced in the eggs
- Available in standard lengths 155m, 186 m, 310 m and 370 m
- Available in standard widths of 200mm and 250 mm
