Rydell Industrial (Belting) Co

Rydell Bollard Covers

NEVER PAINT AGAIN

Rydell Bollard covers are the time saving alternative to painting and maintaining traditional bollard posts. Scuffs and marks can lead to costly repainting. The solution is to install Rydell Bollard Covers.

Rydell Bollard covers are constructed from a low-density polyethylene thermoplastic. They are available as standard sleeves 6mm thick or economy sleeves 3 mm thick. They withstand temperatures from -40C to +99C and are quickly and easily installed using neoprene adhesive tape. The tape securely holds the bollard in place.

Rydell Bollard covers are produced in a wide variety of colors and shapes, and can be custom logo printed to your specific requirements or needs. They are made in 2 thicknesses and come in a number of diameters and lengths.

Ask your nearest Rydell branch for more information.

Main Features

- High Quality polyethylene compounds
- Ultra-Violet resistant
- Anti-Static properties
- Tough hard wearing surface
- Easily and securely fitted
- Huge time saver over painting
- Professional appearance
- Custom made to your size
- Logo's and special colors on request
- Available in a variety of sizes
