Friction Welder

**BEHAbelt** 

Rydell Industrial (Belting) Co introduce our thermoweldable extruded belt "Do-it-yourself" welding kit for round and vee PU and TPE belts.

This professional joining kit comes complete with all the tools necessary to fit onsite, in-situ or in your workshop PU round and vee sections up to 10mm.

We stock a wide selection of round, vee and special profiles in both PU and TPE in both standard and reinforced qualities, ask your nearest RYDELL branch for details.

### Standard Cord Kit

- BEHA SG 02 PU Welding Iron
- Edge Cutter
- AS 02 Scissors for up to 12mm belts
- Standard Guide Clamp (Round and Vee to 10mm)

### Optional Accessories

- Multi TC Dual Temperature Iron (suits both PU and TPE)
- FZ02/03 Guide Clamp for all round & vee belts from 8mm to 32mm.
- AS 04 Scissors with angular stop to suit all round and vee sections.

### BEHA Patented RS 02 Friction Welder

- Proven time saver for multiple in-situ PU belt joins.
- Superior quality joins.
