

Rydell Industrial (Belting) Co

Rapplon Paper Printing & Binding Belts

Belt Selection Guide

Printing

Rydell offers the most extensive line of RAPPLON machine tapes and belting for the printing industry. Designed to handle the most difficult applications in the industry, our folder tapes employ unique fabrics and surfaces to deliver optimum performance of the highest quality. Specially developed to provide just the right surface features, our dimensionally stable, highly flexible materials reduce marking, maintain the surface characteristics longer and require less maintenance.

Rydell also has field splicing solutions to keep your downtime to a minimum. Our quick splice systems allow rapid replacement of your belts. Maintenance personnel can change belts quickly and easily by using our Quick Splice system. The combination of ease, speed and accuracy guarantees a perfect splice every time that will save you time and money.

Binding

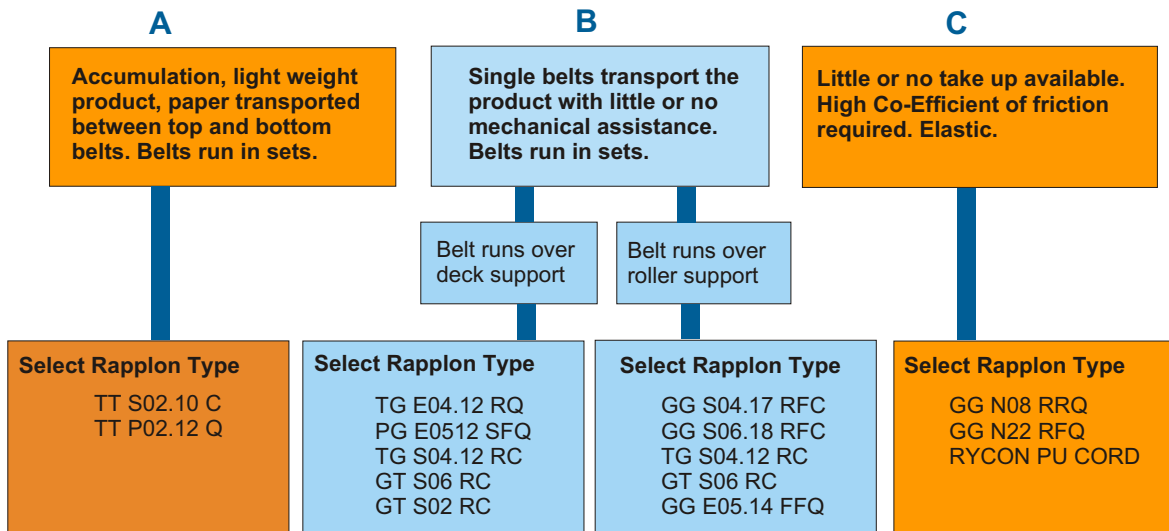

Rydell's wide range of high performance machine tapes and flat belts are used in many applications. From saddle stitching and perfect binding to mechanical binding. Our tapes provide the best performance for transfer and processing. For operations such as binding, feeding, laminating, cutting, addressing, packaging, punching and more.

1

Follow the 3 easy steps for a quick RAPPLON flat belt selection from the flow chart below. Your flat belt will fall into three main groups..A, B or C.

2

Now that you have a belt selection, determine that the pulley diameter and thickness is suitable for your machine, from the chart below.

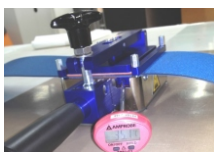

Rappilon Classical	Thickness (mm)	Min Pulley (mm)	Adhesive	Rappilon Quick Splice	Thickness (mm)	Min Pulley (mm)
Rappilon TG S04.12RC	1.4	20	118N	Rappilon GG N08 RRQ	1.4	15
Rappilon GT S06 RC	1.6	40	G100 + 118N	Rappilon GG N22 RFQ	1.0	15
Rappilon GG S06.18 RFC	1.8	40	G100 + 118N	Rappilon TG E04.12 RQ	1.1	15
Rappilon TT S02.10 C	1.7	20	G100 + 118N	Rappilon TT P02.12 Q	1.1	10
Rappilon GT S02 RC	1.0	10	118N	Rappilon GG E05.14 FFQ	1.4	25
	1.1	10	118N	Rappilon PG E05.12 SFQ	1.1	20
				Rycon PU Cord	available 3 to 15mm	

3

Call your nearest Rydell sales office with the following information:

- Quantity of belts required
- Width of belts required
- Belt type required
- Open length, endless length or endless on the machine.

Note: Equal grip/slip belt characteristic MUST be maintained so ensure all belts are changed in a balanced lay out eg. LH & RH upper only or lower only.
